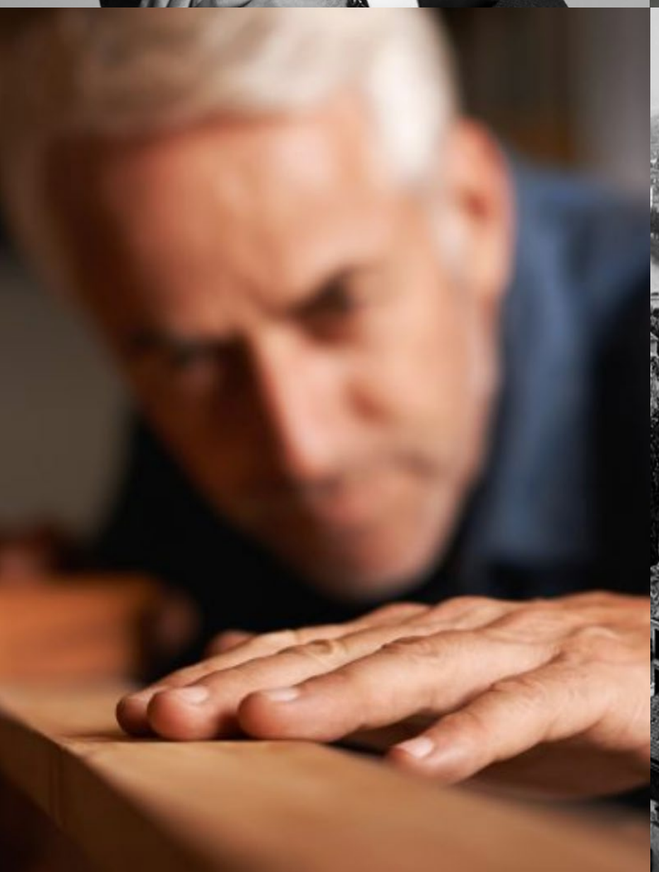
Khayeri™ | KHAYERI CURATED FLOORING



At Khayeri, the genius is in the design.

Canada's premier curators of beautiful flooring, Khayeri knows that great design starts from the ground up – laying the foundation for the visual tone of the space.

Drawing design inspiration from remarkable destinations around the world – like Copenhagen, the Palace of Versailles, SoHo, and Verona – Khayeri creates unique collections of luxury engineered flooring to elevate any room.

SCANDINAVIA

Nordic Collection

Drawing upon Norway's hazy, abundant forests, the Nordic Collection celebrates nature's splendour with a unique colour selection. Hand-selected to favour wood without knots, the result is a cleaner, more minimalistic Scandinavian look, with almost no variation between planks. The extra-wide 8" planks, with the highest structurally stable core support sourced from sustainable Scandinavian & Baltic forests, come in both sanded smooth or lightly-brushed finishes to bring out the natural beauty of the wood, in the finest grade, wide plank French White Oak or European White Ash available anywhere.

Copenhagen Collection

Combining balanced, minimalistic style with practicality in typical Scandinavian fashion, the Copenhagen Collection was influenced with the modern, clean design Khayeri saw there. Available in 7" wide planks and with the highest structurally stable core support sourced from sustainable Scandinavian forests, the Copenhagen Collection is available in a sanded smooth finish. Choose from premium select grade French White Oak or White Ash: the highest grade of wide plank wood on the market.

141

LIGHTLY BRUSHED

Set a trendy and stylish foundation for your modern interior design.

Sophisticated modern flooring to complement modern décor, adding comfort to every step.
